

# Program Edition

## Drive Management Buy-In

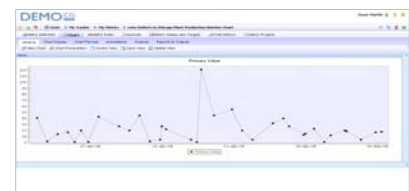

### i-nexus Program Edition

Program/Portfolio control features help deployment leaders drive stakeholder buy-in creating visibility, transparency and ownership:

- **Benefit Reporting**
- **Automated Exception Reporting**
- **'Staggered' Reporting Delivery**

i-nexus' Project Edition enables projects to produce faster and greater tangible benefits, that are clearly communicated to all participants. Easy to use, quick to deploy, and readily customized for any methodology, the Project Edition delivers the results to ensure that your initiative(s) are a Success— "real-time".

Indicators	Seq	WBS	Name	Schedule	Duration	Planned Start Date	Planned Finish Date	Pre-Assign To	Variance
